Motivation

Our goal for this project is to create a library/gallery.
Users will have the possibility to access their photos from the application and listen to their music saved inside the phone.
Take pictures, save them and look at them from the application.
And finally a profile with a custom profile picture.

User Stories - Flutter

Id	As a ...	I want to ...	So that i can ...
1	User	Take a picture with camera	See it in my gallery
2	User	Play a sound	listen to my music
3	User	Access to my profile page	change my profile picture
4	User	Access to the gallery photo	visualize all my pictures
5	User	Access to the library sound	see all my musics
6	User	Access to my profile page	customize my profile page
